## GroundSure Data

**GroundSure Data** is an environmental search report containing exactly the same data as GroundSure Screening but without a professional opinion. GroundSure Data is particularly suited to situations where the client wishes to formulate their own judgment on environmental risk based upon trusted high quality data and information.

## Key Features

Key elements of the GroundSure Data report include:

- The most robust and quality GroundSure data
- Report provided under a single set of terms and conditions and backed by £10 million professional indemnity insurance
- Fixed fee for sites up to 15 hectares (incremental pricing available thereafter)

## Ensure Your Clients Are Protected

**GroundSure Data** provides comprehensive and robust uninterpreted environmental data for commercial property professionals to utilise in their own due diligence. Presented in a user friendly format, **Groundsure** Data provides unrivalled information to support your professional judgment and opinion.

GroundSure Environmental Consultants are available to discuss the findings of reports free of charge and thereafter have full capability to provide further consultancy support to ensure environmental risks are effectively and commercially managed to the best advantage of the client throughout the course of a transaction.
