GroundSure Homeview – Crime

GroundSure Homeview – Crimes contains information relating to crimes which is sourced from the Home Office Crime Statistics for England and Wales. The database details recorded crime levels for six key offences.

All crime rates are based on mid-2004 population estimates supplied by the Office for National Statistics.

Caution needs to be taken when considering crime rates of city centre areas, due to the very small population and household levels in these areas. The very high reported crime rates in city centres are partly due to the use of small resident population and household figures as the denominator of the crime rate. The 'transient population' that migrates into these areas on a daily basis, either for work or leisure, will not be reflected in the resident population figures.

Key Features

The following amenities are covered within the report:

- Crime information (including data on violent crime, sexual crime, robbery crime, burglary crime, vehicle crime and drug offences)
- ASBO information (including data on ASBO statistics and reporting anti-social behaviour)
- Policing information (including data on police force, police stations, neighbourhood watch and police guidance)

Ensure Your Clients Are Protected

GroundSure Homeview – Crimes will enable any purchaser to make an informed decision on their potential purchase, taking fully into account the crime rates currently recorded within the property's location.

GroundSure Environmental Consultants are available to discuss the findings of reports free of charge and thereafter have full capability to provide further consultancy support to ensure environmental risks are effectively and commercially managed to the best advantage of the client throughout the course of a transaction.
