GroundSure SiteGuard

GroundSure SiteGuard is a specialist debt finance environmental risk assessment suitable for use by valuation surveyors and lenders considering secured finance arrangements. The report is specifically designed to provide a "light touch" approach that fits with the bank valuation model process.

Key Features

Key elements of the GroundSure SiteGuard report include:

- the most robust and high quality GroundSure data
- clear and concise tiered risk rankings including consideration of commercial implications
- report provided under a single set of terms and conditions and backed by £10 million professional indemnity insurance
- Fixed fee for sites up to 10 hectares (incremental pricing available thereafter)

Ensure Your Clients Are Protected

GroundSure Environmental Consultants are available to discuss the findings of all reports free of charge and thereafter have full capability to provide further consultancy support to ensure environmental risks are effectively and commercially managed to the best advantage of the client throughout the course of the transaction.

To view specimen reports please contact info@searchesuk.co.uk.
