

Free Mini Health Check

Searches UK have joined forces with Legal Eye to offer lawyers a free mini health check.

Searches UK are recognised nationally for their expertise within the Search Industry whilst being passionate about providing additional offerings to lawyers to help them combat some of the stresses associated with running a law firm in today's market.

One of the greatest daily stresses is Risk and Compliance and it is sometimes the smallest of things we can slip up on.

We are therefore delighted to be able to offer our lawyers the following FREE mini health check completed by Legal Eye.

The mini health check includes the following:

- Review of a client care letter, estimate of fees and disbursements and Terms of Business
- Review of your email footer
- Review of your website
- Review of your letterhead
- Review of your ICO registration Data Protection
- Review of your Financial Services EPF Registration if applicable

All you need to do is email a copy of your client care letter and Terms of Business to info@searchesuk.co.uk and Legal Eye will revert back to you with the results of your review.

Searches UK, have once again demonstrated the high quality and professional service they provide by attaining the Legal Eye Quality Standard for the third year in succession.

Contact us today before it costs you!
