## SUMMARY

Are there major development proposals of concern to the subject property?	YES
Are any important views that the subject property enjoys going to change?	POSSIBLY
Is the immediate area currently under threat from development?	YES
Is there a potential risk to a lender?	NO

If the answer is 'yes' to any of the above questions it will be expanded upon further within this report.

## KEY FINDINGS

There are development risks in the vicinity of the property address given. The likelihood of sites 1-4 being developed is high.

Please note: Sites identified as suitable for development may not be under current planning policy. As planning policies evolve or change, further development opportunities or risks may arise. They may also remove sites from being vulnerable to development.

This report is a prediction of where development may take place, but it cannot be guaranteed what will or will not occur in the future.

### Searches undertaken to compile this report:

1. Professional analysis of Ordnance Survey to identify development opportunities
2. A desk top inspection of the aerial maps over the identified area
3. Birdseye rotational inspection of the surrounding area (where available)
4. Inspection of the Local Plan / LDF
5. Study of attached planning report to establish which major applications may affect the searched property.

### The choices this report presents

This report seeks to establish the development opportunities that exist within a 75m radius of the property you propose to purchase. You can use this information to decide whether to buy the property, conscious of what may happen in the future. Your property may sit within a conservation area and, as such, any development may not be favourably looked upon. It may sit next to green belt that is vulnerable to rezoning for development. It may be next to some large gardens that have development potential. Perhaps the property you propose to buy could itself have an involvement in a development with great financial benefit to you. It may of course have none of the above and you have bought some peace of mind that your home and the surrounding area are unlikely to change in the near future.

Please note that identified sites may not be developed because the landowners will not sell, or for any other reason that could make the development unviable. Some policies change more frequently than governments. All you can do is make an informed decision by assessing the risk and this report will help, by informing you which areas of the locality may change in the future.

Finally, please note that we cannot identify single dwellings that are replaced with a more substantial dwelling than the existing. These one for one replacements are generally not economic. When there is a buyer with a special interest, however, the economics are sometimes not considered relevant. Equally, some properties may be converted into flats, which again is almost impossible to predict.

Planning is a subject where you can never say 'never'! There may always be situations when planning permission is considered acceptable.

### Next Steps

You may wish to discuss the findings of this report with your legal adviser.

If you have any development or valuation questions arising from this report, or would like to investigate any aspect in greater depth, specialist advice is available on request. Detailed reports are also available on planning and neighbourhood information, valuation of development land, impact and risk. 7	0.15	4	14	Low	Slight
8	0.44	9	36	Low	Minor
9	0.05	1	3	Low	Minor

The table above provides minimum density guidance only. Please note, densities can be greater or lower on some sites. City centre locations will demand higher densities. The above is designed to guide you in how many dwellings may be built on those identified sites that do not yet have planning history.

## Local Planning Policy

The land is zoned within the settlement/urban area of London Borough of Merton. Development is presumed acceptable when within the settlement, subject to it conforming to development control policies and standards.

## Development Potential of the Subject Property

The subject property has no development potential. Householder improvements and extensions may still be permitted.

## Planning Applications in the Immediate Area

The attached planning report reveals that site 1, site 2 and site 4 are subject to planning applications. The nature of these applications is expanded on below. The risk of householder extensions and improvements will always be present.

## Summary of Immediate Area

Site 1 is a live site. In 2016 planning permission was granted for the demolition of existing building and the erection of a part three, part four storey building providing 23 residential units (5 x 1 bed, 14 x 2 bed and 4 x 3 bed) with associated landscaping, parking & access arrangements under reference number 15/P4370. We understand that construction has begun. In our view the site can be considered a high risk of development. When developed the site may have some slight impact on the subject property. Relevant plans of the consented development are attached for your consideration.

Site 2 is the subject of an undetermined planning application that is currently pending a decision. The application submitted under reference number 17/P1957 is for the demolition of existing building and erection of seven storey office building including accommodation at basement level. The application has a good chance of being approved and can be considered a high risk of development. If developed the site is unlikely to have a significant impact on the subject property. Relevant plans of the proposed development are attached for your consideration.

Site 3 has been allocated within the local plan as a potential location for development. This indicates that the Local Planning Authority feel the site is suitable for development and clearly the land owner is motivated to develop the site. Consequently the site can be considered a high risk of development. If developed the site is unlikely to have a significant impact on the subject property.

Immediate Area Continued.

Site 4 is the subject of an undetermined planning application that is currently pending a decision. The application submitted under reference number 17/P3135 is for the demolition of existing building and erection of a 5 storey office building (class b1 use) with accommodation at basement level, together with associated car parking and hard and soft landscaping. The application has a good chance of being approved and can be considered a high risk of development. If developed the site will have no impact on the subject property. Relevant plans of the proposed development are attached for your consideration.

Sites 5 and 6 have no relevant planning history and can be considered low risks of development. If developed the sites will have no impact on the subject property.

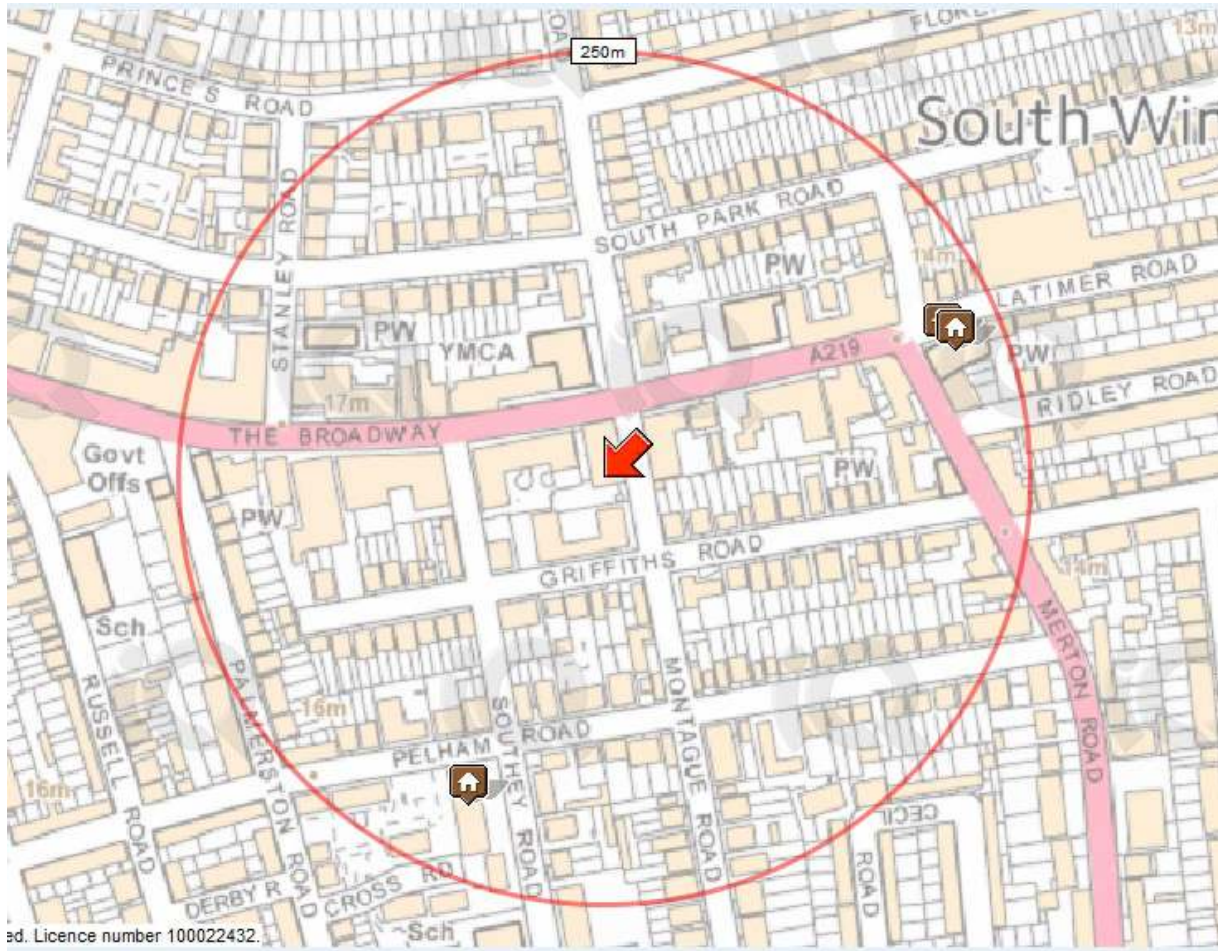

Site 7 has no relevant planning history and can be considered a low risk of development. If developed the site may have some slight impact on the subject property. Development of this site may require a number of owners to be willing to sell at the same time which is rarely successful. Whilst there can be no denying the potential for development exists it is generally accepted that land assemblies are low risk as so many people are required to participate.

Sites 8 and 9 have no relevant planning history and can be considered low risks of development. If developed the sites are unlikely to have a significant impact on the subject property. Development of these sites may require a number of owners to be willing to sell at the same time which is rarely successful. Whilst there can be no denying the potential for development exists it is generally accepted that land assemblies are low risk as so many people are required to participate.

There will be conversion and refurbishment risks in this location. Adjoining properties are not subject to any current applications for basement extensions or roof top extensions utilising light weight structures. Beyond the immediate neighbours there may be other applications for basement extensions or roof top extensions however any changes would be very unlikely to have any negative impact on the property.

### Site 3

The Broadway.

The site is in an area with excellent accessibility to public transport services (PTAL 6a).

As well as The Broadway, the buildings on site are particularly visible from the South Park Gardens conservation area to the north.

Portions of the northern end of the site are within a critical drainage area.

**Current use** YMCA with hostel space, gym, sports hall, café, retail, commercial and Wimbledon Conservative Club.

**Use suggested / organisation** Hostel, residential, retail, café, restaurant, health and fitness suite, crèche and new public spaces – Savills (consultants) representing ORION and YMCA.

**Allocated use** A suitable mix of retail (A1 Use Class), financial and professional services (A2 Use Class), restaurants and cafes (A3 Use Class), drinking establishments (A4 Use Class), offices (B1[a] Use Class), community (D1 Use Class), leisure/sporting uses (D2 Use Class), hostel (Sui Generis Use Class) and residential (including hotel, C3 and C1 Use Class).

**Delivery timescale** 2014 – 2019.

**Issues** This site is a corner site with an active frontage facing onto The Broadway and also acts as the eastern gateway to Wimbledon town centre, therefore redevelopment of exemplary design quality is a must. The ground floor should have an active frontage, respecting the dual aspect and corner site.

Public space would be welcomed.

Proposals should consider the amenity of neighbouring residential uses to the north of the site.

Servicing facilities should be provided on site to minimise impacts on traffic movement, congestion and road safety.

Mitigating and managing the impacts of parking on neighbourhood and local amenity will need to be addressed.

Development proposals will need to incorporate suitable mitigation measures to address the issues associated with the critical drainage area.

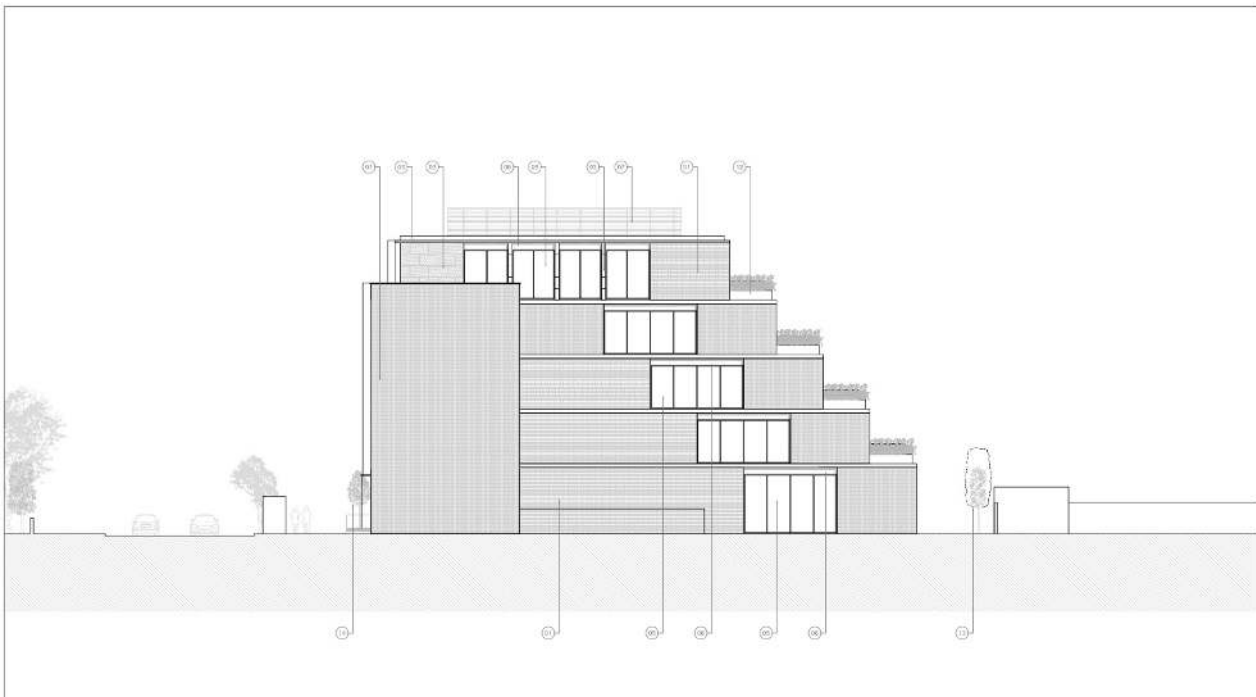

Thames Water have assessed the water/wastewater capacity locally and has identified that there may be insufficient water supply and/or wastewater capacity to service new development on

**Site 3**

this site. In accordance with Policy DM F2, applicants should discuss with Thames Water how capacity will be provided.

**What is DevAssess?**

DevAssess is a unique report that contains information about current and historic planning applications together with a professional opinion about future development opportunities within a 75m radius of a property address, and other local neighbourhood information. It is of particular help in urban areas or where you want to know or are concerned about the risk of any potential future development nearby that could materially affect the enjoyment, view from or value of your intended purchase.

**How is the professional opinion reached?**

It is reached following an Ordnance Survey desk top search and by using land identification techniques and skills that developers use to identify development opportunities. DevAssess is produced by a team of residential property consultants who are all land buyers with extensive experience identifying where developers will want to prospect. They are trained in land assembly and the planning system, which gives them a tremendous insight into what can and can't be developed.

**Is this just guesswork?**

No. The consultants diagnose where the risk of development exists. Their experience in the house building industry and extensive knowledge of the planning system gives them the skills to assess what land developers will want to buy.

**How accurate is this report?**

Whilst every care has been taken in the formation of this report the accuracy of it must be taken in the spirit that it has been written. It is a prediction of where development may take place. We cannot guarantee what will or will not occur in the future. As planning policies and density standards change this may remove or create further areas of development that could not have been foreseen at the time this report was commissioned. It has been written in good faith to provide better information to buyers who would not otherwise understand the planning system or where development may take place. We cannot of course know which land owners will sell to developers, or if at all. This report is based on our professional opinion of development opportunities within the vicinity of the property. Please note though that it is a prediction of where development may take place and does not, in any way, guarantee what will or will not occur in the future. Please refer to the 'Useful Information' section for details of other data sources used to produce this report.

**Hasn't all the land been developed in urban areas?**

No. This is a myth. On average 50-60% of housing land comes from windfall developments within existing urban areas. There are still huge areas of land yet to be developed and, due to a chronic housing shortage, the need to identify land for development is expected to increase further over the next few years. It is inevitable that urban areas will continue to shoulder the vast majority of that burden.

**What will this report show that can't be found in a local authority search?**

Apart from road and rail information, a local authority search is restricted to past planning and building regulation history of the property itself. DevAssess considers current and historic planning applications within the boundaries of the property and in the wider area. It is the only report that also identifies where future development may take place.

**What will this report show that can't be found in a planning report?**

Whilst a planning report considers current and historic planning information, DevAssess is the only report that considers the future, ie, identifies potential opportunities that a developer would also be looking for that do not yet have relevant planning history.

**What will not be shown in the report?**

The report will not identify large buildings that, due to their condition or scale, may be suitable for conversion or replaced with another structure that is made up of flats or split vertically. It will not identify one for one replacements, extensions or home improvements. The report does not forecast when developments will take place; it identifies where they might.

**How likely is it that development will occur that wasn't identified in the report?**

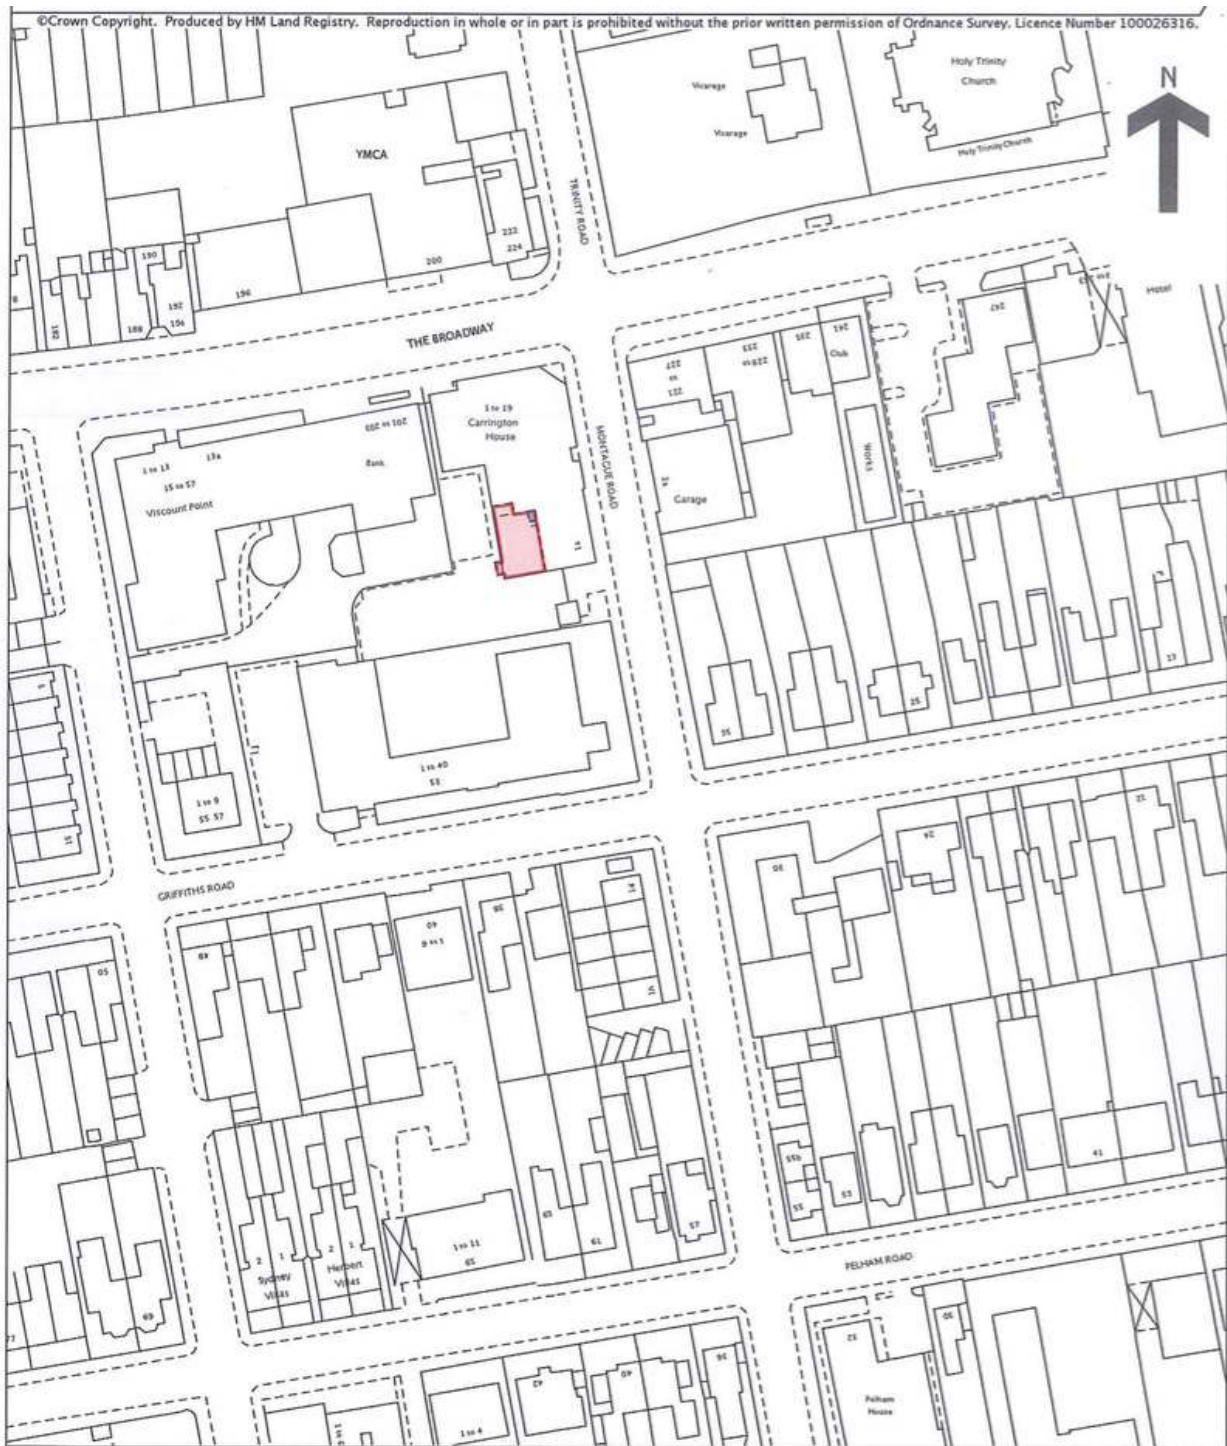

Planning policies do change. When this happens, some areas of development will be opened up that were not previously accessible. Generally this only happens over a 5 year period. As such, a DevAssess report is useful for the average stay in a property.

**Why don't all planning applications appear on the map?**

If there are several planning applications within close proximity of each other, the plan may show these as a single point of reference within a red polygon.

**Are there any other benefits in obtaining a DevAssess Search?**

Yes. It could indicate some hidden value in an intended purchase, although further advice may be required to provide a better understanding of any value that may exist in the property or any covenants it may benefit from.

### Important Note on Planning Data

The following comprehensive list of applications is harvested planning data that is supplied by either  
Landmark Information Group or Groundsure.

DevAssist use this information as part of their investigations.

The data is purchased upon your behalf so that DevAssist consultants can investigate the area surrounding the subject property.  
As this information is provided by a third party DevAssist cannot guarantee its accuracy or its completeness.

If you aware of a particular planning application that may be missing from the data please contact the DevAssist helpdesk on

Is the property in a Radon Affected Area as defined by Public Health England (PHE) and if so what percentage of homes are above the Action Level?

**The property is not in a Radon Affected Area, as less than 1% of properties are above the Action Level**

Is the property in an area where Radon Protection Measures are required for new properties or extensions to existing ones as described in publication BR211 by the Building Research Establishment?

**No radon protective measures are necessary**

## Guidance

Radon is a colourless, odourless radioactive gas which is present in all areas of the United Kingdom, usually at levels that pose a negligible risk to homebuyers. However, in some areas levels of radon are much higher than in others, and in these cases it can pose a health risk. The data supplied by Public Health England (PHE) and the British Geological Survey (BGS) is not able to determine exact Radon levels, as this information can only be obtained through site-specific, in-situ testing. As less than 1% of properties in the area may be radon affected, PHE do not consider that further action is necessary. The responses given on the level of radon protective measures required are based on a joint radon potential dataset from Public Health England (PHE) and the British Geological Survey (BGS). No radon protection measures are required for new builds or extensions.

Have any overhead transmission lines or pylons been identified in proximity to the study site?

**No**

## Guidance

Groundsure provide the data for information only and do not make any judgement on the risks or otherwise of EMFs. The database is searched up to 500m. # Detailed Findings

This section of the report provides detailed information relating to the information found within the search.

The sections Planning Applications, Mobile Masts, Designated Environmentally Sensitive Sites, Local Information and Local Infrastructure each contain a map which displays information found in the search. Each map is followed by the detailed findings for that section. This allows you to view items displayed on the map along with information relating to those items.

The Planning Applications and Mobile Masts section of this report contains data provided under licence from Glenigan, proprietary Mobile Masts data supplied by OfCom. Glenigan is the largest provider of planning data in the UK. The company has been collecting and processing planning application data since 1973. Glenigan tracks applications from initial planning and tender through to contracts awarded. This Planning Report contains the most up to date commercially available information on planning applications made in the vicinity of the subject property over the last 10 years.

Please note that due to differing methodologies adopted by Local Authorities, some planning applications identified as having been refused may have subsequently been granted on appeal without appearing as such within this report. If any refused applications are identified within this report which would have a bearing on a purchaser's decision if they were to have been granted, you are advised to seek further clarification from the Local Authority on the application's status.

Whilst Groundsure makes every effort to ensure that data is sourced from reliable providers, it is unable to ensure that the information is accurate, complete or up to date. Groundsure shall not be liable for any losses or damages incurred by the client or beneficiary, including but not limited to any losses or damages that arise as a result of any error, omission or inaccuracy in any part of the Groundsure Materials where such part is based on any Third Party Content or any reasonable interpretation of Third Party Content. If the existence or absence of a planning application, consent or similar may have a material impact with regard to the decision to purchase a property, the client or beneficiary should make independent thorough enquiries of the local authority.

The Designated Environmentally Sensitive Sites section of this report includes Site of Special Scientific Interest, National Nature Reserve, Ramsar site, Special Protection Area, Special Area of Conservation and Local Nature Reserve data. This data is provided by, and used with the permission of, Natural England / Natural Resources Wales who retain the Copyright and Intellectual Property Rights for the data.

The Local Information and Local Infrastructure sections of this report include PointX data from the Ordnance Survey and Statistical data from Her Majesty's Stationery Office who retain the Copyright and Intellectual Property Rights for the data.

Additionally, this report includes Radon data from Public Health England and BGS who retain the Copyright and Intellectual Property Rights for the data.

This report has been produced by Groundsure Limited and is subject to the terms and conditions attached.

The report is intended to be a useful guide for all property purchasers, and Groundsure Limited does not seek to impose any limitation on its use.

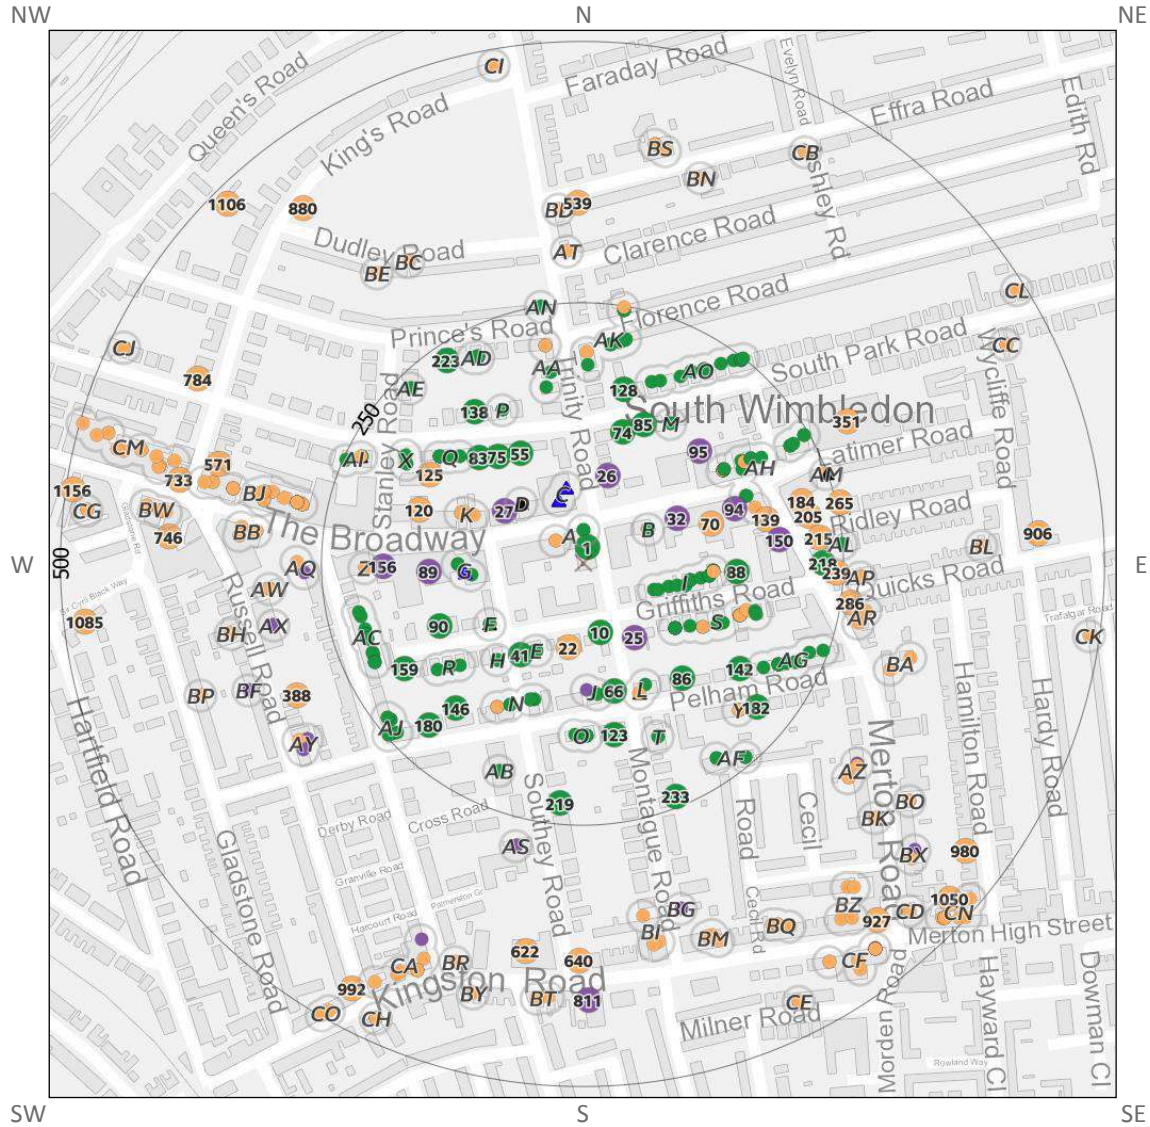

Only certain features are placed on the maps within the report. All features represented on maps found within this search are given an identification number. This number identifies the feature on the mapping and correlates it to the additional information provided below. This identification number precedes all other information and takes the following format -Id: 1, Id: 2, etc. Where numerous features on the same map are in such close proximity that the numbers would obscure each other a letter identifier is used instead to represent the features. (e.g. Three features which overlap may be given the identifier "A" on the map and would be identified separately as features 1A, 2A, 3A on the data tables provided).

Please note that the location of applications (exact) relates to a point within the development, and does not represent the nearest border. The location of applications (proximity) is estimated from site address details and should not be considered as an accurate representation of the project's location.

# Crime

Crime information is sourced from data published by the Home Office, who in turn receive data from the 43 geographic police forces in England and Wales, the British Transport Police, and the Ministry of Justice.

All crime rates are based on population estimates taken from the 2011 UK Census.

Caution needs to be taken when considering crime rates of city centre areas, due to the very small population and household levels in these areas. The very high reported crime rates in city centres are partly due to the relatively small resident population in relation to the 'transient population' that migrates into these areas on a daily basis, either for work or leisure.

Further information on local crime statistics can be viewed at: [www.police.uk](http://www.police.uk)

## Overview

The total number of crimes reported in this area per 1000 people in 2015 was 70.21

This figure is **28.68% lower than** the national average of 98.44

## Crime by Type

A breakdown of the types of reported crime in this area during 2015:

NB: A negative value in the 'Difference' column signifies a lower than average prevalence of that crime type in your area (and vice versa).

Crime Type	Percentage of Crime in Your Area	Counts per 1000 people		
		Your Area	National Average	Difference
Anti-social behaviour	20.31	14.26	31.74	-55.07%
Bicycle theft	3.91	2.74	1.52	+80.26%
Burglary	6.25	4.39	7.14	-38.52%
Criminal damage and arson	7.81	5.49	9.11	-39.74%
Drugs	3.91	2.74	2.60	+5.38%
Other crime	0	0	1.03	n/a*
Other theft	10.94	7.68	8.74	-12.13%
Possession of weapons	0	0	0.42	n/a*
Public order	3.91	2.74	3.45	-20.58%
Robbery	1.56	1.10	0.98	+12.24%
Shoplifting	0	0	5.70	n/a*
Theft from the person	2.34	1.65	1.53	+7.84%
Vehicle crime	9.38	6.58	6.58	0.00%
Violence and sexual offences	29.69	20.84	17.92	+16.29%

\* n/a is displayed where the local average is equal to zero; any comparisons with a value of zero will produce a potentially misleading value of 100%.

The figures above are given for the Lower Super Output Area (LSOA) in which the search area lies. LSOAs are statistical geographies determined by the Office for National Statistics to improve the reporting of small area statistics. These areas have an average of roughly 1,500 residents and 650 households. Measures of proximity (to give a reasonably compact shape) and social homogeneity (to encourage areas of similar social background) are also included in their design.

# Education

## Education Information

The state education system in the UK incorporates a 'Key Stage' system. Each Key Stage corresponds to the level of educational knowledge expected of students at various ages.

The Key Stages are shown below:

Key Stage	Child Age	Educational Year	Additional Notes
Key Stage 0	3-5 years old	Reception years	Nursery School. Also called "Foundation Stage"
Key Stage 1	5-7 years old	Years 1 to 2	Infant School
Key Stage 2	7-11 years old	Years 3 to 6	Junior School
Key Stage 3	11-14 years old	Years 7 to 9	Lower Senior School
Key Stage 4	14-16 years old	Years 10 to 11	Upper Senior School. Typically GCSE examination level
Key Stage 5	16-18 years old	Years 12 to 13	Sixth Form School/College. Typically A-Level, AS-Level, NVQ or HND examination level.

Key Stage educational achievement targets for the various subjects studied at each level are set out in the 'National Curriculum' syllabus.

The Department for Education and Skills is responsible for the UK education system. More information on the department and their services can be viewed here: [www.dfes.gov.uk](http://www.dfes.gov.uk)

You can contact the Department via [info@dfes.gsi.gov.uk](mailto:info@dfes.gsi.gov.uk), call 0370 000 2288, fax to 0161 600 1332 or write to: Ministerial and Public Communications Division, Department for Education, Piccadilly Gate, Store Street, Manchester, M1 2WD.

# Additional Resources

As part of your investigations and enquiries into your search property you may wish to consider investigating the following additional resources to further inform your assessment:

## Development Plans

The term 'Development Plan' describes the various planning policy documents which provide planning guidance. This can be at a Regional, County, District/Borough or Unitary Authority level. These documents outline the Councils adopted land use policies and proposals and contain explanatory text and detailed maps of an area, showing the various allocations or restrictions upon the land.

<http://www.planningportal.gov.uk/planning/applications/decisionmaking/devplan>

## Conservation Areas

In the UK the term Conservation Area applies to an area considered worthy of preservation or enhancement due to its special architectural or historic interest. Properties within a conservation area will be subject to certain development controls and restrictions as defined under the Planning (Listed Buildings and Conservation Areas) Act 1990 (Section 69 and 70).

<https://historicengland.org.uk/listing/what-is-designation/local/conservation-areas/>

## Listed Buildings

A listed building is a building or structures officially designated as being of special architectural, historical or cultural significance. It may not be demolished, extended or altered without special permission being granted by the local planning authority. Owners of listed buildings may be duty bound to repair and maintain the building. For more information and to find out about listed buildings in your area visit this website: <https://historicengland.org.uk/listing/what-is-designation/listed-buildings/>

## Tree Preservation Orders (TPOs)

TPOs protect important trees which have amenity value, prohibiting the cutting down, uprooting, topping, lopping, wilful damage or wilful destruction of trees without the consent of the Local Authority. The maximum penalty for carrying out works to TPO trees without consent is £20,000. For a guide to the law and best practice on Tree Preservation Orders visit this website:

<http://planningguidance.communities.gov.uk/blog/guidance/tree-preservation-orders/tree-preservation-orders-general/>

## Open Access Land

The Countryside and Rights of Way Act of 2000 gives people new rights to freely walk on areas of open country and registered common land. For details of open access land in your area visit this website:

<https://www.gov.uk/right-of-way-open-access-land/use-your-right-to-roam>

## Rights of Way

Public Footpaths, Bridleways and Rights of Way often cross private land. Rights of way have the same status in law as any other highway, and so should be kept open and usable. To find the location of rights of way in your area, please contact your local authority.

<https://www.gov.uk/guidance/public-rights-of-way-local-authority-responsibilities>

## The Land Registry/Registers of Scotland

The Land Registry register titles to land in England and Wales. In Scotland this is undertaken by the Registers of Scotland. Their role is to record all dealings with registered land such as sales, mortgages, and legal proceedings. If you wish to request or download copies of title information related to your property for a small fee visit these websites:

[https://eservices.landregistry.gov.uk/www/wps/myportal/My\\_Home](https://eservices.landregistry.gov.uk/www/wps/myportal/My_Home) [www.ros.gov.uk](http://www.ros.gov.uk)

## Property Price Information

Nethouseprices provide access to UK house prices in England, Scotland and Wales, as recorded by the Land Registry (since April 2000) and the Registers of Scotland (since May 2000). To view the prices of properties sold in your area visit this website:

[www.nethouseprices.com](http://www.nethouseprices.com)

## Broadband Internet Access

Broadband is a high data-transmission rate internet connection. The standard technology in most areas is DSL, followed by cable modem. In some areas, particularly remote areas of low population density, Broadband may not be available. To check Broadband availability in your area visit this website: [www.broadbandchecker.co.uk](http://www.broadbandchecker.co.uk)

- monitor their compliance with the Code

# COMPLAINTS

If you have a query or complaint about your search, you should raise it directly with the search firm, and if appropriate ask for any complaint to be considered under their formal internal complaints procedure. If you remain dissatisfied with the firm's final response, after your complaint has been formally considered, or if the firm has exceeded the response timescales, you may refer your complaint for consideration under The Property Ombudsman scheme (TPOs). The Ombudsman can award compensation of up to £5,000 to you if they find that you have suffered actual loss as a result of your search provider failing to keep to the Code.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to TPOs or to the PCCB.
